

Main Idea and Details

Read and circle the correct answer.

All About Bees

A bee is a small insect found all over the world. Bees are known for their black and yellow stripes. Bees work together to make honey. They make honey from pollen collected from flowers. Worker bees are female. They collect pollen and defend the queen bee. The queen bee makes new bees with the help of the male bees called drones.

What is the main idea?

Bees are a community

Insects are found all over the world

Flower makes pollen
